U.S.A.

October 18--70, 8 P M..70 Hazel St in East Akron, Near Newton St....Arlene Kidd has just been to the store and was returning to her home in Goodyear Hts. As she headed east, just ahead of the railroad tracks, she spotted, hovering over the tracks a beautiful yellow and gold object, about the size of a thumbnail, with star-like projections having smaller gold-yellow to white lights on its ends. It remained for a few seconds then moved away to the west, with no noise. She said there was no re-action from the car and she had no physical sensations.

December 1rd-71 ..6:15..Grant St in Akron, near Holiday Inn. Several employees of Holiday Inn observed a large brilliant star in the southeast, which changed while they watched, from star to kite shape affair, then appeared to gather a halo, which promptly dissipated, and object returned to its original star-like appearance. It remained in the sky for a short time, and then vanished. It did not re-appear at any later time as they checked periodically to see if it was still there or had returned.

*****8*****

December 2nd..8:45 P M..Kenmore District... Earnest and Steve Randolph and Carol Teagle while sitting in a family car waiting for their parents, detachedly watched a plane from the car window as it moved lazily across the sky. Suddenly a white light, rimmed in brilliant red, the size of a thumbnail, shot beneath the plane, going westward. Plane circled around and followed object. Object made a severe right angle turn, and headed north. ..then became smaller in size, but changed to all red, pulsating with a sort of aura of flame all about it.

January 2nd..Mogadore.. Mrs Tatsy Burch ..along with other members of her church, observed a brilliant camera-like flash of light travel in wave-like fashion around the room, seeming to go 'thru' everyone. Immediately afterward, directly behind the preacher and pulpit, a pair of dark eyes appeared. No explanation was offered nor come to.

January 11-71 8:20 P M... Teresa Ramnytz, along with her husband observed as they drove home from work, along Killian Rd, a disk, about the size of a silver dollar, then two disks, chasing one another. Object ahead and higher up, had single round light, the other, behind and lower, had 3 lights in shape of UU..or maby V..Going

PAGE 2

very fast, from west to east. The lights appearing on objects seemed to be similar to little round ball bearings. Front lights were yellowish, tail lights were bright, star colored. No blinking lights noted. Mrs Ramnytz remarked that the entire thing resemble a little car with a big trailer behind it..

January 21-71 6:15 P M Northampton... Stever Randolph saw a large, gold ball traveling low on horizon toward the north, then east, then moved and zoomed upward into ~~the~~ cloud layer and was gone. Estimated size about that of a small orange.

Augusta, Georgia..January 18 thru Jan 21 ... Pauline Dickenson reports the following

Monday, January 18 8:15 P .M Extreme coolness to my left hand. For me, this is always a warning to be alert (or so have discovered it related in this manner)

Tuesday, Jan 19..8:30 P M .. The trailer park lights kept going off and on from about 7 P M to 8:30 . I left the house to go next door, the house lights had come back on when I went out the door, but street lights were still off, so looked up in the sky and to the west was this large orange light, pulsating and just sitting there. I watched for about 3 minutes and got so cold went on in. The light was still in the same spot no larger or smaller when I came out. It was a single orange light that went off and then would flash on with brilliance. I did not watch it to see when it disappeared, but it was not there some time later.

Wednesday, Jan 20 7 P M We were turning into Mr Julius Jenkins house for a dinner engagement, when my husband Haskell said ' Look at the moon. It has a halo over it' WELL! I looked and it was a big round thing, looked like a hazy moon, with a shadow halo over it and three partial rings under it. I tried to tell Haskell and Mr J that it couldn't be the moon because we had a crescent moon in the daytime. Also, this was to the south of Augusta. Since I couldn't get thru to them, dropped the subject, but called Phillip my son, at home and asked him to go out and look. It was not visible at our house, which is the highest elevation in this area. Mrs Jenkins and daughter had been to the market and came home talking about it. Then Mr and Mrs Arnold Brown arrived and they live on the south side of Augusta. They had a marvelous view of it.

Thursday, Jan 21... On the news this AM it was reported as a meteoroidal OR space probe reflection by the sun

The thing that bothers me most is that about 9 P M last night I got a very restless and up tight feeling that I previously described to you and it was much worse today. Like something is going to explode and I am just waiting for it to go off. Also, the left hand is very cold, like a breeze whipping across it and we have the room temp at 80 deg and no doors or windows open.

January 21-71 10:45 A M ..Just got a report from Ann Losgar, she saw the phenomena of last night in an earlier stage than I did. What she saw was a bright red moon with a halo around it, that lifted up and looked like what she called a donut... then the color faded and it just looked like a normal moon with the donut dissipating leaving the moon hang there. She first saw this at 6:45 P M

January 26-71...7:20 P M ...sighting from our home on Belaire Rd and I20. A very large sphere with red center surrounded by blue grey fog..(a sort of red bar, with outer circular bluish mist is shown here) below and to the left a much smaller one as described. It was multi-colored with yellows, greens and blues fading and moving. This was laying in the same direction that I had seen the orange light flashing off and on on the 19th. It has been raining and cloudy here for the past few days but changed today and my son took his scope out to watch the stars. He spotted it, for once I got watch it dissipate..the red gradually faded leaving white fog and it just thinned and vanished. FEEL there is much more in store for here.

*****8*****

Pauline reports excellently..observing not only physical seeming phenomena, but also her own and others sensitivity in various areas. This is vital and important...and it would be too all of your advantages if you would each do likewise. Many of the experiences such as she reported..the cold hand..the up tight feeling...and others... are common phrases used by many people in areas where UFO activity is high....These things are as important as the sighting itself...so include them in your observations and your interviewing.

January 30-71..midnight.....Mrs Hansen, living on Westwood, reported seeing wierd blue flashes of lightening in the distant southeast.

Debbra nd William Teagle , driving home down main st in Akron, reported unusual intense blue lightening observed in the southeast..direction of Goodyear Heights.

Solly Paulson, Howard St, called in a report of seeing fantastic lurid blue flashes of light as he drove down East Market St past the Goodyear plant, to the northeast and southeast, behind him, to the east. He stated his hair was standing on end and he experienced a 'creepy sensation'

Arlene Kidd , Juanita Rd, IN Goodyear Hts, said that at approximately midnight she awoke to an eerie blue cast in her room and huge blue lightening flashes outside. She looked out her window, to the southeast, and saw a ball of vivid blue light, about the size of a full moon, emitting flashes of blue light, comparable to lightening. but no sound was audible.

Sheryl Langley of Canton Rd was driving north and said she became aware of a sudden blue cast to everything. She looked up in the sky to see what appeared to her to be a blue tinged aluminum ball, hovering directly above the Rd, to the northeast, about the size of a small house. She emphasized that it seemed solid enough, compared it to

PAGE 4

~~4//blue//lined//aluminum//ball~~ colored aluminum dishes on the market now. She said the metal itself seemed to be emitting a blue luminous glow. She experienced no physical sensations except a slight dizziness and some blurring of her vision, which was only temporary. She did not not when it disappeared, can only recall that it 'seemed' to be there one minute and gone the next.

Oddly enuff this was a rather unusual day, weather-wise, It had been frigid, then the temperature rose unexpectedly, it began to rain..rather than snow, a high wind began to howl, and the temperature began to drop again. Earlier in the week we had experienced a similar about-face in weather, with instances of wind intensity up to about 100 miles an hour and some sections reporting occurrences very similar to tornadoes.

February 6th..10 P M..Betty Fern..Kenmore District..Mrs Fern was in bed, reading, when she had this sudden urge to sit up and pull back the curtains. As she did so,a strange popping noise began..similar to popping corn. Then she saw descending from the sky a long orange red like thing, and approximately four or five feet long. The rod was orange colored and descending at a steady pace..with orange like golf-ball sized objects exploding from its body, like a fourth of July display. She said they seemed to shower everything with their brilliance and display. The subject was githed to the northwest, and was viewed for possibility three or four seconds, when it vanished..fireworks and orange rod..all at once. A light cloud cover existed that evening.

February 18th...between 8-9 P M..Virginia Kendall Park area...Art and Laverne Davis were parked in one of the parking areas along Quick Rd, observing the beautiful sky and mist that are prevalent from that spot, when suddenly. IN the fog, and seeming to be beaming down from an invisible object just above the fog layer, appeared two slit-like brilliant white lights. Mrs Davis compared them to huge cat eyes. They watched them for about an hour, when they finally simply disappeared. At another parking area, some distance from theirs, and further to the northwest, Glen Bender observed the same unusual phenomena, but with some slight difference. He noted a small red light shining between the two bright white ovals, and for a time was conscious of a brilliant beam of light focused on his face. He has not to date, reported any unusual physical or mental experiences. However, it would not be unusual..for this seems to occur quite frequently when persons are caught in these beams of radiance.

Mid-February, exact date uncertain..Mojave Desert...Marthat Volstkoke in company with several others enjoying the desert beauty, noted, about two hours after darkness had settled in(and it is dark on the desert) a huge glowing light, about the size of the

PAGE 5

hand spread out, at arms length. It pulsed, glowed, intensely brilliant with an even more brilliant core. They observed it for possibly an hour or tow, watching it slowly shrink to the size of a lemon, and then vanish altogether. Miss Voylsloke said she felt it had a great importance..and that in someway it was coonected to the recent birth of a child to a close friend of hers. She did not explain HOW she came to this conclusion, she simply offered it as her feeling while watching the object hover over the group.

February 27-71 about 10 P.M.... Several areas of Akron reported dimming and brightening lights during abo ut an hour period. Most calls came from the lower West Hill sections , Ellet and Mogadore. Ohio Edison said they had no official answer regarding variations in power pulse, but that it was not the fault of impaired service lines. Also at this time, many people reported in these same areas, intense headaches, nausea, weakness and blurred vision. No object was visible at any point and there was heavy cloud cover with medium rain.

February 28-71 East Akron 7 P.M....As Frank and Dollie Hansen and their children drove east on Copley Rd to reach Mrs Hansens parents house in the Ellet District, they became aware of an oval shaped light the size of a dime , larger than any other light in the sky. It began to pulse rythmically as they watched, then changed shape, from a single light to a triangle shaped object with lights at apex, each corner, but with no apparent base . As they continued to watch the UFO...a sudden belch of reddish orange flame shot out. The craft then began to travel south, after making a sharp right-angle turn. It made another right angle turn, this time going south, with another belch of beautiful orange-red flame. By this time the object had grown in size to about the size of a quarter. No one observed any noise at any time.

March 2-5:20 AM WadsworthAt precisely 5:20 A.M my phone rang and upon answering a young woman's voice said she thought a UFO was above her house, as some strange noise was going on and some weird things had been happening. The noise sounded like a howling wind, but no wind was evident. No trees were moving, yet this howling continued. (we heard this over the phone) Her husband, she said, had gone outside to check and see what was the cause of the racket. When she had first called, her voice was somewhat slurred as have observed in people drugged...but as we talked this disappeared and she became quite understandable. She then mentioned the fact that when the noise began, she had

been paralyzed and unable to speak at all. She said she could think clearly, but could not co-ordinate her tongue with her thoughts. She said her limbs were heavy and unresponsive too, and that she was weak, nauseous and trembly inside. As we talked she remarked about a similar experience occurring on February 3rd, when a light had been observed near her home. A neighbor has watched it also and he had commented on how his chest had felt like a great pressure was building up inside it and later that night he had gone to the hospital with a heart attack. At the same time she said she had become exceptionally lethargic and had had to go to the hospital for some checking because of her tired condition where they discovered her blood count extremely low and assumed she had had some pretty heavy bleeding lately. However, she assured me this had not been the case. As we talked she asked if it was light out..to which I replied it most assuredly was not...then she said she could see everything clearly as though it were broad daylight..'In fact..things stand out in shadow' she remarked. Then she said...'Oh...there is a little blue tea-cup sort of thing out there..in the direction of Orville...and now two little blue balls of light came out of it' She then went on to say that the blue teacup would have to be between her house and the next, putting it some hundred feet away at the most. At this point, her voice changed remarkably. Her words became measured, spaced and very perfectly pronounced. Almost as though she were in a state of trance. She said 'I want to follow the little blue light..I would follow that light if I had a car with a good tire on it..mine is flat. I want to go with that light' I asked her if she was not afraid and she said, again in that same weird metered way of speaking 'No..I am not afraid..I would not be harmed..I want to go with the blue light' Immediately afterward she said that the intense howling was back, and then she said that the blue tea-cup was altering and growing larger...it was spreading out the length of the house across from hers. Then...that it had become a hat like affair..and then suddenly...it was gone. At this moment she remarked...'Say, my furnace just came on..in fact, think that is the first it has come on since we have been talking. And there goes my refrigerator..and oh..there goes my electric clock..SAY..what time is it?' when we told her it was then six thirty A M, she said 'Oh my God...my clock says three A M'....Then she said she was cold..cold to the very core of her being...as she had never been at any time before in her life. She said she was all goose-bumpy and then remarked that her skin was covered with little red-spider-web like marks appearing, and many blotchy like reddish marks were coming up all over her body. Her headache was gone, but she felt pretty good except for being so cold. We advised her to hang up and find her husband who had been gone since we had begun the conversation, and actually before that even.

Later in the day, Mrs Purcell called us back, she said her husband turned up around seven, in time to go to work, rather ashen colored and non-communicative. He had been to their old place, out in the country.

PAGE 7

Mrs Purcell did go to the Drs, and he did confirm that the reddish spidery things were like small surface veins breaking, and the blotches like large bruises. However when she asked him to give her a written report for the things he found, he refused. We intend to contact Mrs Purcells Dr as she gave us his name and phone number to see what he will tell us.

March 2-71 Canal Fulton...Nola Ramsey told us she had noted a high sort of howling sound around 9:30 P M...and that she had been highly agitated the past few days, along with having some rather severe headaches and extreme tiredness.

We think it noteworthy to observe that just previous to this Wadsworth report there was such a rash of lassitude, headaches and general discomfort. Also that there had been disturbances in the electrical currents, altho no object had been reported in the vicinity experiencing these physical symptoms. It may be there is NO connection, but all too often this has been the case just prior to a relay intensive UFO activity.

March 1-71 Northampton...numerous persons complained of severe to medium headaches, and at eleven o'clock one couple reported they had noted a sudden blinding flash in the sky which lit up the landscape like daylight. No sound, and no following flashes. Immediately afterward, however, their severe headaches just vanished, alth the woman was highly geared and could not rest the entire night. She was still highly geared the following morning when we talked to her, altho she said she 'felt wonderful'

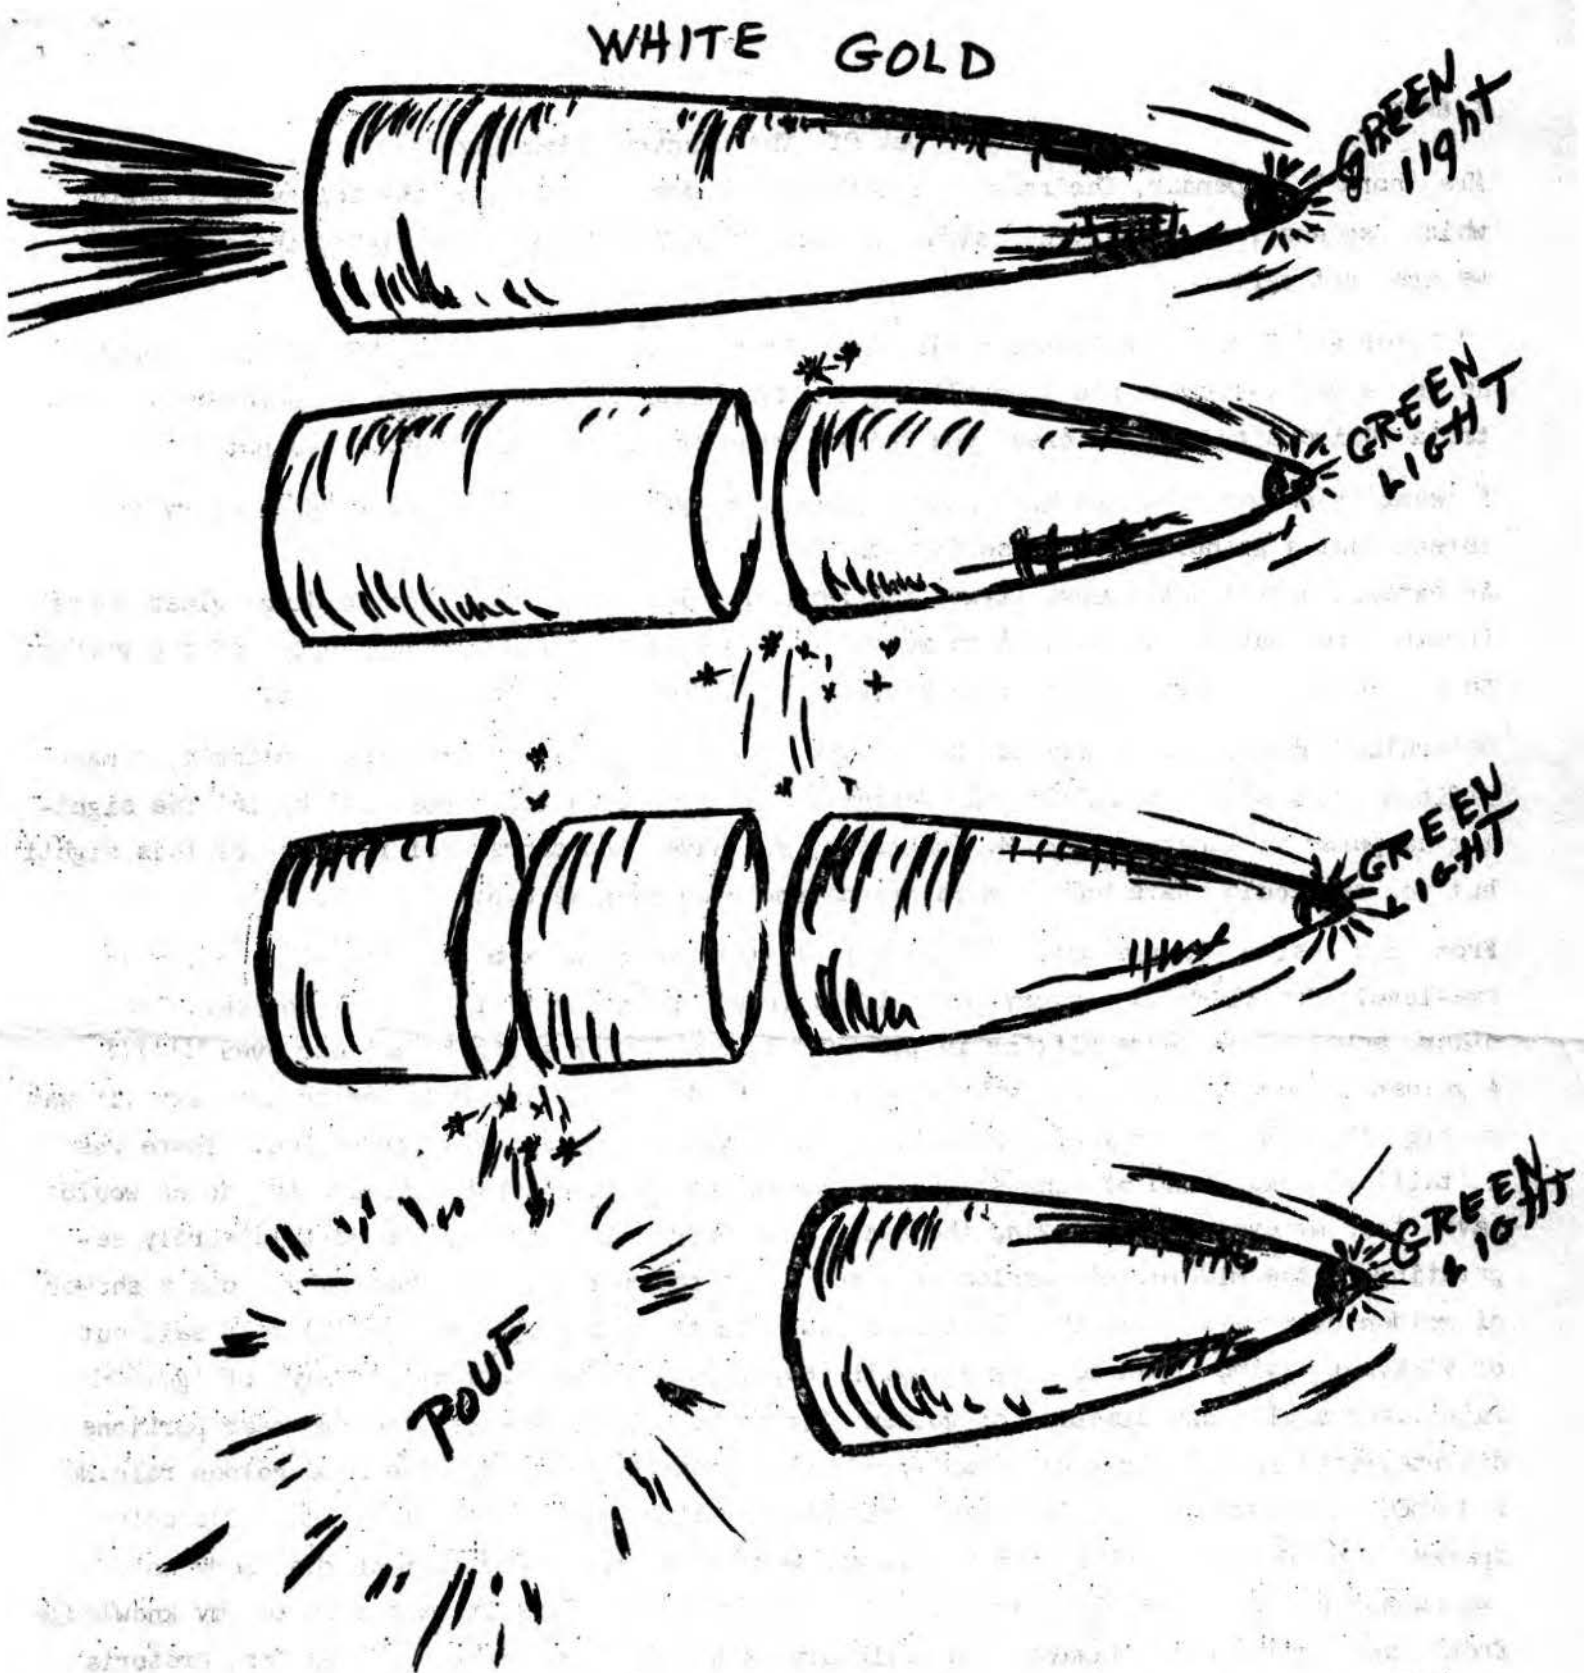

March 4-3 A. M CN unit... A CB'r, Rudy Sarce reported that his ordinarily well behaved set exploded into action at three Am..with CB reports of a large UFO landed between Huston and Dallas, Texas. Approximately 70 miles south of Huston..He said that the regular radio police calls were audible in the background confirming what was being discussed. At no time did he hear the call letters, but he did note that it must have been about midnight there, for the one ham said he had to get ready and leave because he had to be at work at midnight. This was heard on frequency 2.5, 1st band. He listened to it for forty-five minutes.

Anyone having additional info on this..please let us hear about it.

BACK SIGHTINGS

In July, 1966, toward the end of the month, exact date not certain, while standing on a hill, overlooking a small lake, in Turners Hill, Mass, a young Science teacher observed a beautiful luminscent green ball of light drift slowly earthward..reminding him of a Roman Candle display. He could not estimate the distance, except to say that it was between him and the other side of the lake. It was a perfectly shaped sphere, in the northern sky. No physical discomfort reported.

Ted Kostecky

Gold UFO as viewed by CONTACT Chairman Mrs Rhona T Dippenaar and Mrs Evelyn Van Vloten over Pretoria, Africa

Out Of The Country .Sighting

Mrs Rhona T Dippenaar, Chairman for CONTACT, Rhodesia reported the following sighting which speaks for itself, The sighting occurred in S Africa, but as to the exact date we are not certain.

" Peter and I were in Pretoria visiting friends. Our hosts were Dr and Mrs J Venter. He is a neuro-surgeon now specializing in psychiatry. His wife was a lecturer at Pretoria University and in case you think I was there as a patient..I was not!!!

Present also were Mr and Mrs Alwyn, parents of Mrs Venter and Mr and Mrs Veary of Durban. Just a gathering of close friends.

An extension of their lounge takes the form of a large sunroom with folding glass doors forming the outer wall and thru which one looks down the steep declivity of the garden to far away, Pretoria lying like a pool of glittering jewels at our feet.

Waterkloof Ridge, is, I should think, the highest point of suburban Pretoria, a magnificent view being had from the Venter's sun lounge, a room about 24' by 16'. The sighting happened at about 6:30 P M. Doubtless you have had scores of reports of this sight but no one could have had a more grandstand view than we had.

From the inside lounge door (thereby indicating that we saw the UFO practically at eye-level) Mrs Alwyn gave a cry of ' LOOK..Look'..pointing to the darkened sky. The other seven of us were sitting in the sun lounge. When a sight met our eyes '!!!!!!' A golden torpedo..white gold with a green light in front..sailed across the sky. It was so big that it could not of entirely be held within ones field of vision. There was a 'tail' of some kind of exhaust, but I could not dwell on that because to do so would have torn my eyes from viewing the main body which was at that moment leisurely separating in the middle, not explosion wise, just parting. At the parting so did a shower of golden rain fall. Then the latter half..I had to let the first (nose) half sail out of view, not having chameleon eyes..again separated with a glorious display of 'golden rain'..and a glorious display of golden fireworks. Then each of the two rear portions disintegrated in a firework display of all fireworks, all the the same golden rain. No red about it anywhere. The UFO was horizontal in its journey all the time. The only sparks ..no flame or fire from the at all..were from the separation of the body on its two occasions from the disintegration of the two rear parts. It was seen to my knowledge from East London to Bulawayo and Salisbury. A veldt fire started in the Fort Pretoria region was thought to have been caused by more disintegration of the same object and a search is going on for any substantial evidence of this.'

As this sighting was included in our Christmas letter from the International Chairman, Brinsley Le Poer, we assume it must have occurred sometime in November or possibly October. At any rate, in early fall.

PAGE 10

NOW...FSIC a local UFO group, have notified us of a beautiful golden UFO observed by many authorities, many airline pilots, but which was not locked into on radar, with an estimation of its approximate length about 2,000' having passed from a point in the mid-west, over the Akron area, and lost at pittsburgh, Pennsylvania, at a height of 70,000'. More details of this will brought out later in a special newsletter from FSIC, according to Larry Moyers, co-Chairman of the group. You can probably receive this by simply writing for it and enclosing 50¢ for cost of mailing and compilation. Write to

FSIC BULLITIN

Drawer ~~C. M. Moyer~~ G

Akron, Ohio 44305

The above sighting was made on January 23 of this year. Anyone having additional information concerning this report we would appreciate hearing from you, as would also FSIC you might be able to fill in some extra details.

Perhaps some of you will recall that around ten years ago, many contactees were commenting on a huge Mothership type of craft, named variously....Golden Dawn, Golden Fleece Golden Auriga and other assorted names. ALL however had a common theme...that when the time was right for 'lift off' this ship would appear to one and all and signal specific action about to begin...Well...now we shall have to have patience and SEE what sort of action follows the appearance of these beautiful 'golden ships'...

Touching on catacteeism...and yet not in the way in which most of us have come to think of contact...we would urge you all to write to WHITE STAR...asking for their latest releases, which DO deal with 'Operation Lift Off'....it might be wise of all if you boned up on this slowly seeming materialization of things hinted at in the years of the first so-called space-man to earth-man communication...

SPECIAL REPORT

In the last two weeks of July and the first two of August -69, we had scattered reports in the West Hill Section, Ellet District and various other parts of North Hill and up into Medina, of TV interference of sorts. Black and whitesets were giving colors and glyphs, colored ones were producing colors never before seen on them, and voices and sentences were heard that did not belong on the program being observed. Many times the message would almost blare out at the viewer in unusual manners. For example one person told us they were eating lunch in the living room, a TV dinner, which they were thinking wasn't too cool, when a mans voice said , over the program being herad. ' It IS a lousy meal...isn't it ?' She said she was so shocked she nearly dropped her plate. Her son, seven, heard it also and he thought it funny... Another person reported hearing a voice say ' What is all this doing to your radio and Tv equipment' to which another voice replied ' It's tearing the hell out of channael 5, and wonder what those people are thinking...it doesn't seem to bother the radio too much. But Tv..WCW !!' Many persons commented that there definitely seemed to be a two-way conversation going on, between someone on the ground and someone in the air, and that at times the one voice spoke in a language they had never heard before, but the other voice which they elected was probably on the ground, would reply in English as tho he understood perfectly what the words meant. So much for that.

Many UFO reports were being accumulated, also...and in the same specific areas.

Then, the first Monday in August a woman called from the West Hill district stating she felt she was in contact with UFO and that she had been expecting to go for a ride in a ship the upcoming Thursday. We took her message, asking her to be sure to call us back when she had made her voyage, and also requesting she asked whoever was on board the ship to possibly pick up a few other individuals whom we knew wanted to go on a UFO. We advised her we would think of these names mentally between the time she had first contacted us and Thursday when she anticipated her trip. Which we did. She did not call back until ~~Thur~~ Friday morning.

However, Thursday evening we had a report from one of her neighbors to the effect that at about 2 A M they had been awakened by a fantastic brilliant flash and looking out the window, observed that the house across the street (which happened to be this womans) was lit up with a blinding white light so brilliant everything on the block stood out in detail. The first thought was that an explosion had taken place ..but then when they noted no noise, and when the light remained constant and steady, they began to think things were certainly strange, and so, because they had been told ~~we~~ we were interested in unusual phenomena, thought to let us know. How fortunate we were that they did.

Meanwhile, we had proposed three names for going along with the woman. A little boys, and two woman we knew would be highly delighted to have an interesting experience as

this would seem to promise.

On Friday morning early, the woman from West Hill called. She stated that at around midnight her entire family had fallen asleep, soundly. She, however, had remained up until about 2 A M, when a knock came at her door. She opened it to see a beautifully built young woman, with as she said 'The most beautiful, dark, chestnut, almost black hair I have ever seen anywhere. The hair was so lustrous and unusual, that would recall it anywhere were I to see it again.' However, this unusually beautiful female had no features where her face should have been. Nonetheless, the young woman of Earth had no fear and went directly with her as though she had known for a long time that she would do so. Outside a black car awaited her. Inside were two additional passengers, both men, in the front seat. Where the dashboard usually is, a large red box sat, and she said she felt it was to communicate with the Mother Ship. Immediately they began to move, a sort of greyish to black mist began to envelope the car, both inside and out. This, her woman passenger explained, was to assure that no one else saw them leave, and that she could not note what direction they went. However, she tried to pay attention to the way her driver went by 'feeling' and she said later that she thought they may have gone down Rt 8 to about Arlington and turned right, then travelled along that road for a small space, then turned right again, then left, into a woods where the ship stood in a clearing, waiting for them. At a later date, she painted a picture of the area she found the ship in. From that point on, her story is rather vague. She recalled the steps for boarding seemed to materialize right out of the very material of the draft, then to melt back into it again. There were no visible seams or welds anywhere. The interior was softly lighted, but she did not recall who else, if anyone was present. HOWEVER, she DID say that about 2:30 A M they picked up a little crippled boy in East Akron somewhere, and a girl on Canton Rd and another person named Sandy. These were the people had mentally asked to be taken. She did not elucidate any further information to me, nor has she since.

Shortly after this call, the little boy she spoke of called and said that the night before he had been strongly impressed he was going on a UFO ride, and so he had bathed, dressed in clean new pajamas and sat on the couch until 2:30 A M when he fell asleep, and he was still there when he awoke around ten the following morning (Friday).

Two weeks after this incident, on a Monday again, another woman, living this time in the Killian Rd section, and who had been reporting some unusual phenomena for a short period of time, including balls of light in the sky, a green light that would remain sometime in the field across the street, then vanish, and other assorted things. Also, from this area, we had been getting a large number of reports of one kind or another, a good many of them falling into the 'unusual' category, and really more into the classification of just unusual phenomena than classic UFO...

Faceless woman, with long, chestnut colored, almost black hair...which would be remembered anywhere, anytime, by two women who have since had some rather extraordinary experiences.

Mrs Dollie Hansen of Westwood, West Akron, and Mrs Joyce Vellacca of Killian Rd, South Akron.

Their story, or rather the beginning of their story appears in this issue of CONTACT....

Is the lack of facial features due to a mask ??? Do they really have no features ?? IF they are like Ted Owens contacts, perhaps the form is simply energy...and they did not bother to make a face. OR..is it conceivable that a sort of vibrational pattern is emanated from their facial area, blocking the seeable view of the onlooker.???

So many and varied are the possibilities that one scarcely knows which to begin with. We have heard since these encounters of other faceless visitors...and perhaps when all the data is amassed it will reveal the true facts. We can only wait, listen, evaluate ...and one day, know. We hope..that is!!!!

In any event, this particular evening she called to say that she and her husband had been out for a hamburger the previous night and spotted a rather large, orange red ball of light in the southeast sky, near Goodyear Aerospace, which did not change size, position nor shape, but which did seem to pulsate from red to orange to white and back again thru that color order. When they went home, it was still in the sky, they parked their car, and stood outside to see just what would happen to the ball, for by this time they had determined it WAS NOT an airplane or any ordinary source of light. It was noted at precisely 12:20 A M, and at exactly 1:30 AM it simply went out. She said she and her husband went inside, but were so keyed up they could not go to bed, so sat up and talked till 4 A M, when he finally elected to try to get a little sleep. She decided to lie down on the sofa for a few winks. However, she had scarcely stretched out, when a big gust of wind swept thru the window and blew her draperies out from the window rod. She jumped up to close the window and roze in her tracks. She said she could not move. She was paralyzed. And...standing on the other side of the window, looking back at her, was a woman, beautifully built, with the most beautiful, long, dark chestnut, almost black hair she had ever seen anywhere. 'If I ever see that head of hair anywhere she commented, I will know who it belongs to for have never seen hair such as that on any mortal.' BUT...the woman had no discernible features where her face was !!!!

Oddly enuff, when she recovered from her frozen state, the woman was gone. She rushed outside and turned on all the floodlights to illuminate the area, but could see her nowhere. Then she noted a high pitched whine similar to that of a motorcycle, except that when a cycle reaches its readiness to take off, there is a loud roar. This was not audible. Instead, the noise gained in shrill frequency until it was no longer heard, altho the dogs in the neighborhood were raising all sorts of ruckus.

At a later date, we visited the area just behind this individuals home, where a small woods borders the Firestone Golf Course, and between this woods there is a weed field and then their house. The woods, when we visited them, matched perfectly the drawing the West Hill woman made as to where her craft was waiting for her, right down to the tall blue spruce, a border of what she thought to be barberry but which were in fact, blueberry bushes, but which have a very similar leaf, the spongy marshy ground over which she had to walk to reach the ship and all.

Comparing all of these facts..one cannot help but speculate as to how close these two are attun3d. And what was the purpose. Other things have happened to the woman on Killian Rd, which we will report in later issues, some of which we have been personally present and they are all intensely interesting and provoking. This area has continued over a period of time to have a high number of UFO reports...and many of our most unusual have come from this precise section, or a clearly parellel-line to it. ??????

SPIRITUAL SUPPLEMENT

Many of you have written asking for a Spiritual Portion of CONTACT. As there are also others among you who would wish for anything but that, we have decided to offer the Spiritual Supplement, which will include from time to time, exercises for expansion of awareness, for unity in power of projected thought, telepathy and whatever we can find to put into it. Particularly there will be an emphasis on meditation and its art, as this is what most of you have asked FOR. This at the present time will cost nothing additional except your desire to be part of it. It may possibly be in the future after we see how it works out we may have to ask for money for postage and paper, but at the present that is not a real problem. IF you are so inclined, please fill out the bottom of the page and return it to us and the next issue we hope to include this Supplement for those who have requested it, right along with the CONTACT. In this way we hope we will not be stepping on any toes, nor pushing things down anyones throats.

We want to fully fill your needs...but we also know that everyone's needs are NOT alike. So...we try.

Spiritual Supplement Request Form

The MASTER SPEAKS

The Master sat upon the hillock, gazing into the noon-day sun, and the youth sat beside him.. 'Master.. what have you to say of all these drugs I have taken, what have they done to me, and should I have taken another path??'

The Master turned to him and with eyes gentle as a doves, smile tender as a Mothers, and voice like warm spring breezes, areplied softly ' I might have asked that you had trod another path, and yet, that path would not have brought thee here. The blazing sun within that sky will blister some men, warm another, and destroy still another. Some worship it, some curse it, and some simply utilize that which it gives forth to BE utilized. So it is with drugs. In the FATHERS Kingdom, all things have time and place and all things move to the same eventual goal..total ONENESS.

The drugs you have absorbed into yourself hastened your awakening, brought clarity when perhaps it was not too kind, bestirred your thoughts to higher things, to dizzy heights and far flung galaxies.

You found yourself, and yet in finding self, you have had to learn to live with dissolving illusions, and self has revealed to thee the true selves of other mortals, and thaa thy sadness has been increased abundantly. And yet, thy forefathers could not have walked thy path, and having walked it, you have come to touch upon the truth of all of life. No, my son, I reject you not for what you have done, but reject you I shall, if, having found that unity in life is truth, and Cosmic Consciousness a fact, and that LOVE is all that IS, you bend not your hand to serving your fellowman..this IS the greatest sin of all..to omit one particle of Infinity in the self's own growth'

The youth gazed upon the sweeping greenness to the valley's belo, the spiraling rise distant mountains, the wispy clouds clustered there, and again to the soft and silvery stream winding lazily in the meadows far beyond, and asked thoughtfully 'What then, Master, would it be that I should do, to fulfill this command?'

Go forth, my son..and LOVE life free..LOVethe life thru which you move, be it animate or inanimate. LOVE all thinggs into perfe ction, LOVEthy brother..not with lips alone, but with the fullness of your heart and all of your being. LOVE the SOURCE from which you came..with all that thou art..for with out that SOURCE...thou art NOT...and yet, without thee, that SOURCE is uncomplete. LOVE with an all consuming fire...and KNOW that where thou walkest, LIFE shall be freed...it shall become... all that it IS...and in THINE OWN GREAT LOVE...THYSELF SET FREE...TO BE.'

'And Master, will you be here, when my task is finished ?'

'Ah no, my son, ' the Master smiled' for when the task is complete, it shall be thee who sitteth upon this hillock, speaking words of similar content, to yet another questing youth'
